LOWBOY, 55 TON 3+1 AXLE, DETACHABLE NON GROUND BEARING, MAXIMUM PAYLOAD 110,000 LBS

Powdercoated

LOWBOY, 55 TON

FEATURES & BENEFITS

MULTI POSITION RIDE HEIGHT

Multi Position Ride Height options. Makes adjustments for various 5th wheel heights easy and allows for larger ground clearance or lower deck height.

STEMCO WHEEL WARRANTY

5 year wheel end warranty. Guardian wheel seals, Pro-Torq spindle nuts and Sentinel hub caps.

LIGHTING SYSTEM

All Lighting is LED and mounted in rubber grommets to DOT standards.

AIR BAGS

30K pound rated large diameter air bags are standard. This allows for lower operating pressure and higher capacity when needed.

WARRANTY

Globe Trailer's 10 year structural warranty on all lowboys is the best in the industry. Most competitors offer only a 5 year warranty. This shows how committed Globe Trailers is to it's customers.

STANDARD FRONT RAMPS

Standard Steel Front ramps, for ease of front loading.

DECKING OPTIONS

Oak: Standard. Apitong: Best strength to weight ratios of natural woods. Rumber: Composite which is impervious to fluids, mud, oil and UV rays.

COLOR CODED HOSES

Color coded air hoses allow for easy trouble shooting and maintenance.

22" DECK HEIGHT

With a standard deck height of 22", Globe Trailers have lower overall height, which allows taller loads to be hauled.

ADDED SECURITY

Globe Trailers air lock with safety bar and spring extended pin ensures that the gooseneck locking pin will remain secured even if air pressure is lost.

OPTIONAL FLIP BOX

Flip box length options are available to achieve longer swing clearances when needed for longer truck frames or when coupling to single or multiaxle jeeps.

Globe Trailers can powder coat to the color of your choice.

LOWBOY, 55 TON

FEATURES & BENEFITS

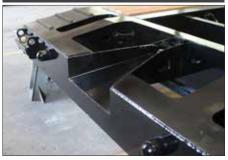

Constructed with T-1 100K PSI yield strength Steel. The High Tensile Steel ensures the designed camber is retained, and allows for a longer product service life.

HEAVY DUTY FRONT OUTRIGGERS

Globe Trailers fabricated heavy duty pullout front outriggers provide added strength which is needed to accommodate the initial force when loading equipment. The outrigger is held in position with a spring loaded locking pin.

V-STYLE GUIDE

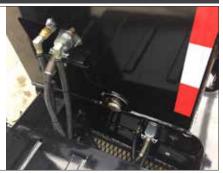

V-Style guide with front tapered beams helps position the gooseneck locking pin, which makes hooking up to a Globe Trailer fast and easy. The locking pin guide rim helps prevent the gooseneck locking pin from coming loose in transit.

The Stinger Assembly increases the wheel base of the trailer when attached to the rear trailer frame. The Stinger Assembly is used for heavy hauling situations where regulations and specific axle loads must be adhered.

CENTRALLY LOCATED FITTINGS

Air, electric and hydraulic (when applicable) fittings are all centrally located at the base of the gooseneck inside a bolster. This makes for quick and easy connect and disconnect. The fittings are protected from possible contact with equipment being loaded or unloaded.

12" CROSS MEMBER SPACING

Standard 12" stubbed cross member spacing produces added strength to the trailer and also less stress on the decking, leading to a longer life of the decking material.

POLYURETHANE VS RUBBER BUSHING

Reduced Maintenance	Increased Maintenance
Increased Trailer Lifetime	Needs Replacement
Increased Trailer Performance	Reduces Trailer Performance
Weather Resistant	Damaged from Weather

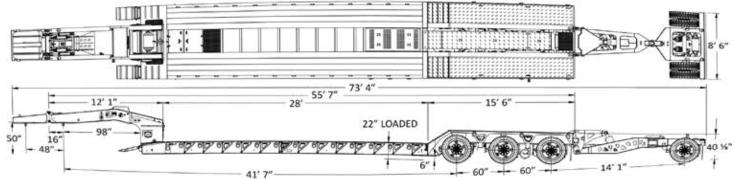

All Globe Trailers are 100% powder coat finished. The entire process takes place at Globe's manufacturing facility. This eliminates the possibility of contamination occurring in transit between process phases. The process starts with sandblasting the trailer to near white, preheating the trailer steel in a dedicated, gas fired oven to optimum bonding temperature and applying an electrostatically charged zinc rich primer. The trailer then goes back in the oven to allow the primer to bond. After the primer has bonded, a top coat chosen from one of Globe Trailers' 188 color options is applied before once more going back in the oven to cure. The result is a durable, easily cleaned finish that protects the trailer from corrosion and ensures a long service life.
